We are excited to begin welcoming our Mariners back on board beginning this week! In response to the changing conditions around the nation and within Connecticut, we continue to adapt our procedures towards our constant goal of creating the safest possible environment for our students, staff and faculty.

- It is mandatory that **all resident students submit a negative SARS-CoV2 Viral PCR prior to being cleared to move into their residence hall.** No on-campus quarantining will be allowed until negative results are submitted.
- Results, including full name, birth date and test result, must be submitted electronically (scanned version is fine) to the following secured mailbox: covidresults@mitchell.edu.
- If test results are not available at the time of a student’s scheduled move-in date, a request for alternate move-in dates may be made through Friday, August 28, 2020 at 5:00 PM by emailing housing@mitchell.edu.
- If your test result is negative, but you have been exposed to someone who is COVID-19 positive before your return to campus, please stay home and retest. Contact your advisor for further instructions.
- Students must move in by August 31 to be eligible to live on campus this fall.
- For complete testing protocols, visit [COVID-19 Testing](https://mitchell.edu).

Thank you for adhering to this critical protocol to ensure we are creating the safest setting to begin our residential two-week quarantine and healthiest start to our semester.
