

Mitchell College Initial Program Candidate Competency at Completion Data

Measure 3: Candidate Competency at Completion (R3.3)

The data in Table 3 suggest that all completers of the EPP’s Initial Program finished their program with a strong GPA of over 3.0. The pass rate for Praxis II: Early Childhood matches. The small candidate pool should be taken into consideration. Although all candidates passed, several candidates passed on their second try. In order to increase the first time, pass rate, assignments and assessments will be measured against INTASC standards in our online grading system, Moodle. Results will be analyzed as a part of our continuous cycle of improvement.
