

Mitchell College Initial Program Completer Ability to Be Hired Data

Measure 4: Ability of Completers to Be Hired (in positions for which they have prepared)

The data in Table 4 support that completers of the Initial Program have the ability to be hired after graduation in the positions they have trained for. The small data pool must be taken into consideration. Further analysis is needed as to the substantial drop in students employed 2 years after graduation. As a result of this information, the Education Department created systems to contact graduates via personal emails to gain updates on employment status and satisfaction with the EPP.

Graduating Year	Number of Completers	% Employed 1 Year after Graduation	% Employed 2 Years after Graduation
2020	1	100%	100%
2021	2	100%	100%
2022	4	75%	0%
2023	6	Awaiting Data
